EXPERIENCE

Freelancer, Remote — Front-End Developer

November 2023 - PRESENT

I create responsive and user-friendly websites for clients to promote their business and help market their brand. I also create functional E-commerce sites for business owners to aid in sales of products and also in collecting payments from customers.

Upperlink Limited, Lagos — Web Dev Intern

May 2023 - October 2023

I was tasked with quality assurance of websites that are being pushed into finishing and I also contributed in the creation of Informative websites for clients by adding needed components and fixing bugs involved in the responsiveness of the website.
