Work Experience

BuildHubb

Tradeet - (Dec 2023 - Till date)

Tradeet is a cutting edge tech product that addresses the need for individuals to efficiently sell, give away or donate their personal items like clothes and shoes. It provides users with a personalized marketplace, allowing them to create a unique link for their social media bios. The platform has a simple interface that is inspired by instagram profiles, making it easy for users to showcase and share their items.

Major contributions

- Created a seamless and easy to use web interface for users to interact with the platform in a favorable manner.
- Ensured the web app is visually appealing and functional across various devices and screen sizes
- Proficient in using Next JS to build scalable and modular components
- Collaborated with designers, backend developers, and other team members to achieve a cohesive and functional user interface
- Communicated effectively within the team, providing updates on progress and addressing any challenges

Technical Skills

- HTML
- CSS
- JavaScript
- React JS
- Next JS
- Git
- GitHub
- NPM
- Yarn
